

LIST OF PLATES

- 1 (*colour*) Oils of different colours after various detergent treatments
between pages 16-17
- (A) Watergate Bay, 15 April
(B) Booby's Bay, 8 April
(C) Kynance Cove, 20 April
- 2 Comparison of detergent-oil emulsions 24-5
- 3 Marazion beach
(A) Newly arrived splodges of oil on 1 April
(B) Strand lines of redeposited treated oil on 5 May
- 4 (A) Detergent spraying in a remote cove near the Lizard, 22 April
(B) Gunwalloe Fishing Cove, 28 April
- 5 (A, B) Cleansing operations at Porthleven, 28 April
- 6 (*colour*) (A, B) Côtes du Nord, 21 June: oil/water emulsion at 32-33
Trégastel-Plage, and polluted salt marsh nearby
(C) Oil settled underwater at Mullion Harbour, 6 April
- 7 (*colour*) (A) Oil on the sea north of Ushant, 12 April 48-9
(B) Isolated patch of oil south-west of Ushant, 18 May
(C) Untreated oil, Bay of Biscay, 12 May
- 8 (*colour*) (A) Breaking wave with oil, Gunwalloe Fishing Cove, 30 March
(B) Porthmeor Beach, St Ives, with untreated oil, 28 March
- 9 (A, B) Marazion: survival of top-shells and limpets, 5 May 56-57
(C) Limpet tooth marks on rock at Trevone, 9 June
- 10 Detergent spraying and polluted rocks at Trevone
- 11 Rock-face at Trevone—before and after pollution
- 12 Limpets killed by detergent at Trevone, mid-April
- 13 (*colour*) Whitesand Bay: 64-65
(A) Sennen, 28 March, heavy oiling in high-water region
(B) North of Sennen, 20 April, returning treated oil
- 14 (*colour*) (A) Viscous oil between boulders, Sennen, 28 March
(B) Newly settled oil at Booby's Bay, Constantine, 29 March
(C) Oil-impregnated sand at Sennen, 23 August

- 15 (*colour*) (A) Surviving byssal threads of mussels killed *between pages 80-1*
by direct spraying, Trevone, 14 May
(B) Dead shore molluscs, Trevone, 23 April
(C) Damaged algae, Trevone, 23 April
- 16 (*colour*) Sewer rocks, Trevone, conditions in summer 1955 and on
9 July 1967 compared
- 17 (*colour*) Limpets controlling algal growth (A) and deposited oil (B) 96-97
- 18 (*colour*) (A) Heavily sprayed tide-pool, Kynance, 20 April
(B) Untreated oil, impregnated with sand, flaking off rocks, Bedru-
than, 7 August
(C) Untreated oil strand line in Hayle Estuary, with *Xanthoria*
surviving below it, 23 August
- 19 Barnacles (*Chthamalus*) killed by detergent (A), but unharmed by oil 104-5
deposit (B), early May
- 20 (A) Razor-shells (*Ensis*) affected by detergent near low water at
Marazion, 28 March
(B) Dead shells of *Ensis*, *Macra*, etc., in 10 metres depth off
Porthleven, 18 May
- 21 Oil in sand at (A) Sennen, 23 August, and (B) Perranuthnoe, 12 May
- 22 (A) Detergent-oil patch moving along coast from Porthleven, mid-
April
(B) Detergent emulsion spreading across the bay at Trégastel-Plage,
Côtes du Nord, 21 June
- 23 (*colour*) Detergent-oil emulsion patch off Porthleven, showing 112-113
oil separating away from the rest of the patch, 7 April
- 24 Underwater views of the rippled sand bottom off Porthleven, showing 120-1
moribund burrowing-urchins (*Echinocardium*) and razor-shells
(*Ensis*), 19 April
- 25 (A) An oil-affected but live masked-crab (*Corystes*), 15 April
(B) Detergent-affected sea-urchin (*Echinus*), 24 April
- 26 (*colour*) (A) Detergent-affected *Delesseria* at 5 metres depth 128-129
off Porthleven, 5 April
(B) Dead *Echinus esculentus* underwater at Sennen, 7 April
(C) Dead bottom-fauna in 17 metres off Porthleven, 28 April
(D) Shells of molluscs recently killed by detergent, in drift line,
Constantine Bay, 8 April
- 27 (*colour*) Polluted shores in Guernsey and Brittany 144-5
(A) Oil residue on rocks near Fort le Crocq, Guernsey, 10 July
(B) Oiled rocks on Ile Renot, Côtes du Nord, 21 June
(C) Oiled salt marsh and sand near Trégastel, Côtes du Nord,
21 June

- 28 (*colour*) (A, B) Dense swarm of *Noctiluca* with craie de Champagne and small lumps of oil, 12 May *between pages* 160-1
(C) Treatment of shore at Trégastel-Plage, Côtes du Nord, 21 June
- 29 Cleansing methods in Brittany 168-9
(A) Steam-clearing oily rocks at Locquirec, 20 June
(B) Detergent spraying at Trégastel-Plage, 21 June
