

Sub-model 3. Temporarily or Permanently Attached Passive Filter Feeders

1. Regional to Global Drivers

Legend

Magnitude of Influence

- Small
- Medium
- Large

Driving Influence

- Positive Interaction
- Negative Interaction
- Feedback

Driver Relevance to Infralittoral/Circalittoral

- | | |
|----------------|---------------|
| Low Relevance | Infralittoral |
| High Relevance | Infralittoral |
| Low Relevance | Circalittoral |
| High Relevance | Circalittoral |

Degree of Natural Variability

- Low natural variability
- Moderate natural variability
- High natural variability

Version 1.0

Please see accompanying report for model restrictions and limitations
